High quality and homogeneous colours that will guarantee a uniform and outstanding finish.

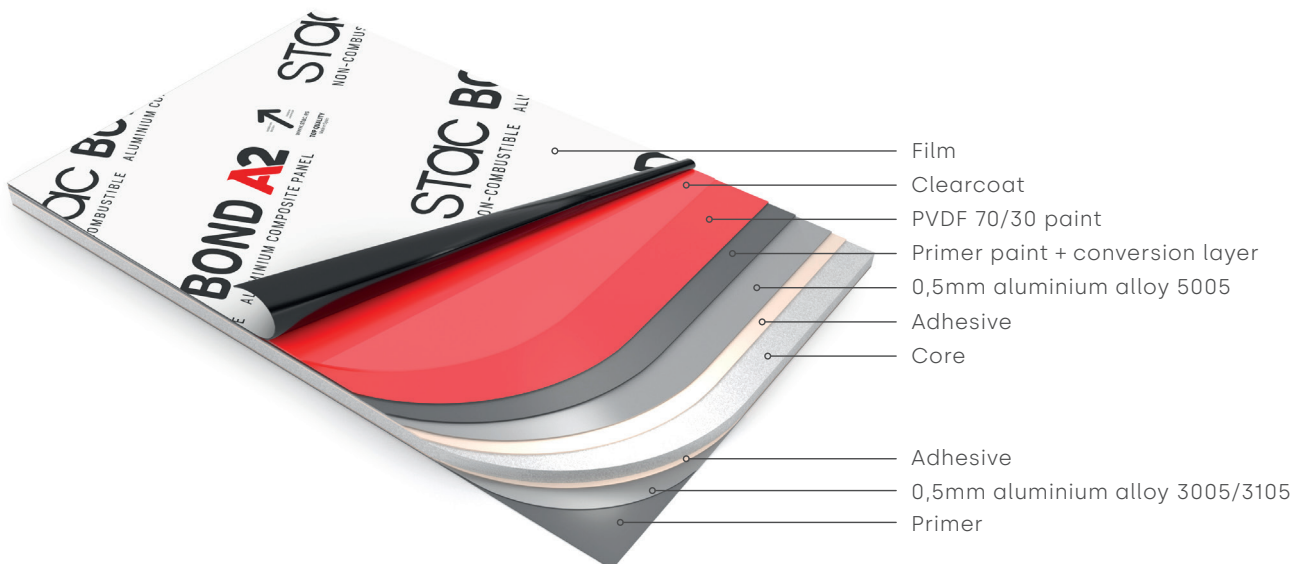

**STACBOND®** provides a wide range of standard colours that will allow your creativity to have no limits.

Colores homogéneos y lacados de alta calidad que aseguran un acabado uniforme y excepcional.

**STACBOND®** dispone de una gran selección de colores estándar para que sus proyectos creativos no tengan límites.

Des couleurs homogènes et de très haute qualité qui assureront une finition uniforme et exceptionnelle.

**STACBOND®** offre une grande variété de couleurs standards pour que vous puissiez concevoir des nouveaux projets sans limite.

The **STACBOND®** panel has an external 5005 and internal 3005/ 3105 aluminium alloy and is coated with the highest quality PvdF 70/30 paint (polyvinyl flouride) that offers the highest resistance to ageing.

The manufacture of **STACBOND®** composite panel follows a controlled process by way of rigorous tests and quality controls.

El panel **STACBOND®** posee una capa exterior de aluminio de aleación 5005 e interior 3005 / 3105 y está lacado con pintura de la más alta calidad PvdF 70/30 (polivinilo fluorado), ofreciendo la más elevada resistencia al envejecimiento.

La fabricación del panel composite **STACBOND®** sigue un proceso controlado mediante rigurosos ensayos y controles de calidad.

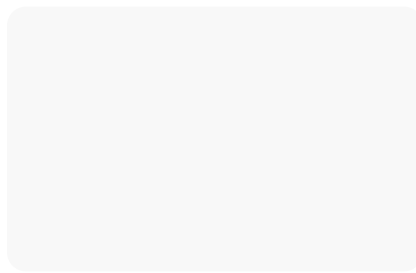

Le panneau **STACBOND®** avec une couche extérieure en alliage d'aluminium 5005 et intérieure 3005 / 3105 et laqué à la peinture PvdF 70/30 (polyvinyle fluoré), offre une haute résistance au vieillissement.

La fabrication du panneau composite **STACBOND®** répond à un processus de contrôle rigoureux validé par des essais et des audits de qualités.
